

## Securing Communications Between the Juniper Networks Database and SRC Components with the C-Web Interface

---

Communications between SRC components and the Juniper Networks database use password authentication. You can change the default passwords for the following software components to ensure that communications are secure.

- License server
- NIC
- SAE
- SRC CLI
- Configuration for SRC components other than the CLI and the NIC

To change the administrative password for the Juniper Networks database:

1. Click **Manage > Request > System > LDAP > Change Admin Password**.

The Change Admin Password page appears.

2. In the New Password box, enter the new password.

To change a component password:

1. Click **Manage > Request > System > LDAP > Change Component Password**.

The Change Component Password page appears.

2. Enter information as described in the Help text in the main pane, and click **Apply**.
