

Specifying Application Managers for the Policy Server (C-Web Interface)

To specify the SAE community that connects to a policy server group, you need to add an application manager group object to the directory.

To specify the application manager for the policy server:

1. Click **Configure**, expand **Shared**, and then click **Network**.

The Network pane appears.

2. From the Create new list, select **Application Manager Group**.
3. In the dialog box, enter a name for the new Application Manager Group, and click **OK**.

The Application Manager Group: < *name* > pane appears.

4. Enter the information in the main pane as described in the Help text, and click **Apply**.
