

Specifying Initialization Scripts on the SAE

Use the following configuration statements to specify initialization scripts for third-party devices:

```
shared sae configuration driver scripts {  
    extension-path extension-path ;  
    general general ;  
}
```

To configure initialization scripts for third-party devices:

1. From configuration mode, access the configuration statements that configure initialization scripts.

```
user@host# edit shared sae configuration driver scripts
```

2. Specify the initialization script for third-party devices.

```
[edit shared sae configuration driver scripts]  
user@host# set general general
```

3. Configure a path to scripts that are not in the default location, */opt/UMC/sae/lib*.

```
[edit shared sae configuration driver scripts]  
user@host# set extension-path extension-path
```

4. (Optional) Verify your initialization script configuration.

```
[edit shared sae configuration driver scripts]  
user@host# show
```
