

Purchasing a Periodic Account

A periodic account is an account into which the service provider periodically adds volume. The periodic quota is tracked in the periodic account.

To purchase an account that your service provider replenishes periodically:

1. In the navigation pane, click **Buy Bandwidth**.
2. Navigate to the PeriodicQuota Account area.
3. Click **Activate**.

The screenshot shows the Virneo Customer Care website. The top header includes the Virneo logo with the tagline "The network that keeps you surfing" and a welcome message "Welcome jane@virneo-quota.com". A blue navigation bar contains "Virneo Customer Care". Below this, a left sidebar lists navigation options: "Balances", "History", "Sessions", and "Buy Bandwidth" (which is highlighted). The main content area is titled "PeriodicQuota Account". It contains the following text: "A PeriodicQuota account provides you with 5,000,000 MB of high-speed uploads and/or downloads every month. If you use up the balance in your PeriodicQuota account, your high-speed internet access will cease until the beginning of your next monthly billing period, at which time your PeriodicQuota account balance will be topped up to 5,000,000 MB again." Below this, it states: "You currently have a balance of 0.000 MB in your PeriodicQuota account. This account is currently **inactive**." and "An active PeriodicQuota account costs \$15 per month." There are "Activate" and "Deactivate" buttons. The next section is titled "BoughtQuota Account" and contains the text: "A BoughtQuota account lets you maintain high-speed internet access even if you have a zero balance in your PeriodicQuota account. The balance in your BoughtQuota account will never expire. It stays available until you use it. If you have a balance in both your PeriodicQuota account and your BoughtQuota account, uploads and/or downloads will be changed to your PeriodicQuota account until it is empty, after which they will be charged to your BoughtQuota account." It also states: "You currently have a balance of 998.576 MB in your BoughtQuota account." Below this are three radio button options: "Buy 1GB for \$10 (1 \$/MB)", "Buy 2GB for \$15 (0.75 \$/MB)", and "Buy 4GB for \$20 (0.5 \$/MB)". A "Buy" button is at the bottom of this section. The footer of the page says "© Virneo 2003".
