

Viewing Action Congestion Point Information by Congestion Point

Purpose View action congestion point information by congestion point.

Action To display information about backbone congestion points by service:

```
user@host> show acp backbone congestion-point congestion-point-expression
```

To display information about specific backbone services used to generate congestion points:

```
user@host> show acp backbone congestion-point congestion-point-expression  
service-name service-name
```

Enter a partial service name to list all matching backbone services.

To display information about the backbone services from a specific virtual router:

```
user@host> show acp backbone congestion-point congestion-point-expression  
virtual-router-name virtual-router-name
```

Enter a virtual router name to list backbone services from a particular virtual router.

To display information about the backbone services from a specific interface:

```
user@host> show acp backbone congestion-point congestion-point-expression  
interface-name interface-name
```

Enter an interface name to list backbone services from a particular interface.

To display information about the backbone services for a specific interface description:

```
user@host> show acp backbone congestion-point congestion-point-expression  
interface-description interface-description
```

Enter an interface description to list backbone services for a particular description.

To display information about the backbone services from a specific interface alias:

```
user@host> show acp backbone congestion-point congestion-point-expression  
interface-alias interface-alias
```

Enter an interface alias to list backbone services from a particular alias.

To display information about the backbone services for a specific NAS port ID:

```
user@host> show acp backbone congestion-point congestion-point-expression  
nasPort-id nasPort-id
```

Enter a NAS port ID to list backbone services from a particular ID.

To display congestion point DNSs:

```
user@host> show acp backbone congestion-point congestion-point-expression brief
```

By default, information about the congestion point attributes and congestion point bandwidth is displayed.
