-
- In the Subscriber DN box, enter a full or partial subscriber DN for which you want to display information, or leave the box blank to display all subscriber sessions.
- In the Maximum Results box, enter the maximum number of results that you want to receive.
- Select the **Secret** check box to set a flag indicating that subscriptions and service sessions from hidden services are displayed.
- In the Slot box, enter the number of the slot for which you want to display subscriber session information.
- Select an output style from the Style list.
- Click **OK**.

The Subscribers/DN pane displays information about subscriber sessions.
