

Solaris Packages and Installation Folders for the SRC Application Library

Table 1 on page 1 lists the components for each application, their Solaris package names, and the directories where each component is installed by default. In Table 1 on page 1, the directories listed are all subordinate to */opt/UMC*.

Table 1: Solaris Packages and Installation Folders for Application Library

Application	Components Supplied with SRC	Package	Installation Directory
Threat Mitigation Application	■ Threat Mitigation Application	■ UMCthma	■ conf/thma
	■ Python Runtime Environment	■ SMCpython	■ python
VTAs	■ VTAs	■ UMCvtacnf	■ conf/vta
	■ Python Runtime Environment (includes Python additional libraries)	■ SMCpython and UMCpyadd	■ python
