

Classifying DHCP Subscribers (C-Web Interface)

A classification script can contain either a target and a condition or a script. If you do not define a script, the classifier must have both a target and a condition.

To configure DHCP classification scripts:

1. Click **Configure**, expand **Shared > SAE**, and then click **DHCP Classifier**.

The Dhcp Classifier pane appears.

2. From the Create new list, select **Rule**.
3. Type a name for the new rule in the dialog box, and click **OK**.

The rule appears in the side pane and the Rule pane.

4. Enter a script or a target as described in the Help text in the Main pane, and click OK.
5. To configure a condition for a target,
 - a. Expand the rule in the side pane, and click Condition.

The Condition pane appears.

- b. Type the DHCP classification condition name , and click OK.

The condition appears in the side pane and the Condition pane.
