

## Configuring the SAE to Manage JUNOS Routers (C-Web Interface)

---

To set up the SAE to manage JUNOS routers, configure a router driver that specifies a COPS server that can accept COPS connections from the COPS client in JUNOS routers.

To configure the SAE to manage JUNOS routers:

1. Click **Configure**, expand **Shared > SAE > Configuration > Driver**, and then click **JUNOS**.

The JUNOS pane appears.

2. Click **Create**, enter information as described in the Help text in the main pane, and then click **Apply**.
