

Configuring Initial Directory Eventing Properties for IMS (SRC CLI)

Use the following configuration statements to configure directory eventing properties for IMS:

```
slot number ims initial directory-eventing {  
    eventing;  
    signature-dn signature-dn;  
    polling-interval polling-interval;  
    event-base-dn event-base-dn;  
    dispatcher-pool-size dispatcher-pool-size;  
}
```

To configure initial directory eventing properties:

1. From configuration mode, access the configuration statement that configures the local properties.

```
user@host# edit slot 0 ims initial eventing
```

2. Specify the initial directory eventing properties for IMS.

```
[edit slot 0 ims initial directory-eventing]  
user@host# set ?
```

For more information about configuring local properties for the SRC components, see Configuring Basic Local Properties.

3. (Optional) Verify your configuration.

```
[edit slot 0 ims initial directory-eventing]  
user@host# show  
eventing;  
polling-interval 30;
```
