

Configuring Event Traps (C-Web Interface)

To configure event traps:

1. Click **Configure > SNMP > Notify** , and expand **Event** .
2. From the Create New box, select the category and the category name, and click **OK**.

The Category pane appears.

3. From the Create New box, select the event and click **OK**,

The Event pane appears.

4. Enter information as described in the Help text in the main pane, and then click **Apply**.
