

Sending SRC License Usage Reports to Administrators (SRC CLI)

Send license usage reports to system administrators or others to have them monitor the maximum number of concurrent active SAE service sessions and compare that number with the number allowed by the server license.

To specify users to receive SRC license usage reports:

1. From configuration mode, access the configuration statement for license server e-mail configuration.

```
[edit]
user@host# edit shared license-server email
```

2. Specify the e-mail server. for example:

```
[edit shared license-server email]
user@host> set server my-server.mycompany.com
```

3. Specify one or more e-mail addresses. Use commas to separate addresses. For example:

```
[edit shared license-server email]
user@host> set usage-report-address CBee@mycompany.com,
SJones@mycompany.com, JSmith@mycompany.com
```
