

Enabling the Subscriber and Subscription Configuration on the C-Web Interface

Before you can configure subscribers and subscriptions with the C-Web interface, you must enable the policy, service, and subscriber editor on the C-Web interface. To do so :

1. Click **Manage > Enable**.

The Enable pane appears.

2. From the Component list, select **Editor**, and click **OK**.

If you are using multiple C-series Controllers, we recommend that you enable the policy, service, and subscriber editor on only one C-series Controller on your network.

CAUTION: If you enable the editor on multiple platforms, there is a risk that configuration changes will conflict. In this case, the second edit that is committed to the platform is lost.
