

Viewing Information About System Interfaces (C-Web Interface)

Purpose View information about all system interfaces.

Action 1. Click **Monitor > Interfaces**.

The Interfaces pane appears.

The screenshot shows the Juniper C-Web Interface. At the top, there is a navigation bar with tabs: Monitor, Configure, Diagnose, and Manage. The 'Monitor' tab is selected. On the right side of the navigation bar, it says 'Logged in as: admin' and has links for 'Refresh', 'Preferences', 'About', and 'Logout'. On the left side, there is a sidebar menu with various system components: ACP, CLI, Component, Date, Disk, Interfaces... (highlighted in orange), Iptables..., JPS, NIC, NTP, Redirect Server, Route..., SAE, Security, and System. The main content area is titled 'Interfaces' in orange. It contains a form with a label 'Interface Name' and a text input field. Below the input field are two buttons: 'OK' and 'Reset'. The footer of the page contains copyright information: 'Copyright © 2007, Juniper Networks, Inc. All Rights Reserved. Trademark Notice. Privacy.' and the Juniper logo with the tagline 'Juniper your Net.'

2. In the Interface name box, enter the name of the interface for which you want to view data.
3. Click **OK**.

The Interfaces pane displays the information about the interface.
