

## Viewing SNMP Information for Routers and Devices with the CLI

---

**Purpose** View SNMP information for routers and devices that the SAE manages. You can view information for all routers and devices, or for specific ones.

**Action** To view SNMP information for routers and devices that the SAE is managing:

```
user@host> show sae statistics device
```

To view information for a particular router, specify all or part of the VR name. For JUNOS router drivers and PCMM drivers, use the format `default@routerName`.

```
user@host> show sae statistics device filter filter
```

To view only the RADIUS clients that were accessible by IP address and port number:

```
user@host> show sae statistics device brief
```
