

Configuring Login Classes (C-Web Interface)

To configure a login class:

1. Click **Configure**, expand **System**, and then click **Login**.

The Login pane appears.

2. From the Create New list, select **Class**.
3. Type a name for the login class in the dialog box, and click **OK**.

The Class pane appears.

4. Click **Create**, enter information as described in the Help text in the main pane, and then click **Apply**.
