

## Classifying Interfaces (C-Web Interface)

---

To define interface classification scripts:

1. Click **Configure**, and expand **Shared > Network**.
2. Expand the device for which you want to configure interface classification scripts, and then click **Interface Classifier**.

The Interface Classifier pane appears.

3. From the Create new list, select **Rule**.
4. Type a name for the new rule in the dialog box, and click **OK**.

The rule appears in the side pane and the Rule pane.

5. Enter a script or a target as described in the Help text in the Main pane, and click **Apply**.
6. To configure a condition for a target:

- a. Expand the rule in the side pane, and click **Condition**.

The Condition pane appears.

- b. From the Create new list, select **Condition**.
- c. Type the interface classification condition name, and click **OK**.

The condition appears in the side pane and the Condition pane.
