

Starting the C-Web Interface

Before you start the C-Web interface, verify whether access is configured for HTTP or HTTPS.

To start the C-Web interface:

1. From a Web browser, enter the name or IP address of the SAE and the port number for the C-Web interface.

https:// host :port/

or

http:// host :port/

The C-Web interface login page appears.

2. On the login page, type your username and password, and click Log In.

The Monitor page appears.
