

Removing Login Registrations

You can delete all login registrations, or you can delete a specific registration.

To remove login registrations:

1. Issue the **show sae registered login** command to view the login registrations.
2. Issue the **clear sae registered login** command to remove all login registrations.

- To remove a specific registration, use the **mac-address** option and specify the media access control (MAC) address for the registration.

```
user@host> clear sae registered login mac-address mac-address
```

- To specify that no confirmation is requested before the software deletes the registration entries, use the **force** option.

```
user@host> clear sae registered login force
```

```
user@host> clear sae registered login mac-address mac-address force
```
