

## Configuring Service Fragments for an Aggregate Service (C-Web Interface)

---

To configure service fragments for an aggregate service:

1. Click **Configure**, and expand **Services**.
2. You can configure service fragments for an aggregate service in the global service scope or in a service scope.
  - To configure service fragments for an aggregate service in the global service scope, expand **Global**, and then expand the specified service.
  - To configure service fragments for an aggregate service in the service scope, expand the specified scope and service.
