

Configuring the Client Secret for External Subscriber Monitor

Use the following configuration statements to configure trusted clients for External Subscriber Monitor. If no clients are configured, all RADIUS accounting packets are discarded.

```
slot number external-subscriber-monitor radius-accounting client client-address {  
    secrets secret;  
}
```

To configure trusted clients for External Subscriber Monitor:

1. From configuration mode, access the configuration statement that configures the RADIUS server, and specify the client address.

```
user@host# edit slot 0 external-subscriber-monitor radius-accounting client  
               client-address
```

2. Specify the shared secret of the RADIUS client.

```
[edit slot 0 external-subscriber-monitor radius-accounting]  
user@host# set secret secret
```
