

## Enabling the Subscriber and Subscription Configuration (C-Web Interface)

---

Before you can configure subscribers and subscriptions with the C-Web interface, you must enable the policy, service, and subscriber editor on the C-Web interface. To do so :

1. Click **Manage > Enable**.

The Enable pane appears.

2. From the Component list, select **Editor**, and click **OK**.

If you are using multiple C Series Controllers, we recommend that you enable the policy, service, and subscriber editor on only one C Series Controller on your network.

**CAUTION:** If you enable the editor on multiple platforms, there is a risk that configuration changes will conflict. In this case, the second edit that is committed to the platform is lost.
