```

**Description** IPv4 multicast statistics for interface

### <ipv6-multicast-statistics>

#### Usage

```
<multicast-statistics>
  <ipv6-multicast-statistics>
    <input-bytes>
      input-bytes
    </input-bytes>
    <input-bps>
      input-bps
    </input-bps>
    <output-bytes>
      output-bytes
    </output-bytes>
    <output-bps>
      output-bps
    </output-bps>
    <input-packets>
      input-packets
    </input-packets>
    <input-pps>
      input-pps
    </input-pps>
    <output-packets>
      output-packets
    </output-packets>
    <output-pps>
      output-pps
    </output-pps>
  </ipv6-multicast-statistics>
</multicast-statistics>
```

**Description** IPv6 multicast statistics for interface

**<ipv6-multicast-statistics>****Usage**

```

<logical-interface>
  <multicast-statistics>
    <ipv6-multicast-statistics>
      <input-bytes>
        input-bytes
      </input-bytes>
      <input-bps>
        input-bps
      </input-bps>
      <output-bytes>
        output-bytes
      </output-bytes>
      <output-bps>
        output-bps
      </output-bps>
      <input-packets>
        input-packets
      </input-packets>
      <input-pps>
        input-pps
      </input-pps>
      <output-packets>
        output-packets
      </output-packets>
      <output-pps>
        output-pps
      </output-pps>
    </ipv6-multicast-statistics>
  </multicast-statistics>
</logical-interface>

```

**Description** IPv6 multicast statistics for interface

**<ipv6-multicast-statistics>****Usage**

```

<physical-interface>
  <multicast-statistics>
    <ipv6-multicast-statistics>
      <input-bytes>
        input-bytes
      </input-bytes>
      <input-bps>
        input-bps
      </input-bps>
      <output-bytes>
        output-bytes
      </output-bytes>
      <output-bps>
        output-bps

```

```
</output-bps>
<input-packets>
  input-packets
</input-packets>
<input-pps>
  input-pps
</input-pps>
<output-packets>
  output-packets
</output-packets>
<output-pps>
  output-pps
</output-pps>
</ipv6-multicast-statistics>
</multicast-statistics>
</physical-interface>
```

**Description** IPv6 multicast statistics for interface

### <ipv6-multicast-statistics>

#### Usage

```
<physical-interface>
<logical-interface>
  <multicast-statistics>
    <ipv6-multicast-statistics>
      <input-bytes>
        input-bytes
      </input-bytes>
      <input-bps>
        input-bps
      </input-bps>
      <output-bytes>
        output-bytes
      </output-bytes>
      <output-bps>
        output-bps
      </output-bps>
      <input-packets>
        input-packets
      </input-packets>
      <input-pps>
        input-pps
      </input-pps>
      <output-packets>
        output-packets
      </output-packets>
      <output-pps>
        output-pps
      </output-pps>
    </ipv6-multicast-statistics>
  </multicast-statistics>
</logical-interface>
```

```
</physical-interface>
```

**Description** IPv6 multicast statistics for interface

### <ipv6-multicast-statistics>

#### Usage

```
<interface-information>
  <physical-interface>
    <multicast-statistics>
      <ipv6-multicast-statistics>
        <input-bytes>
          input-bytes
        </input-bytes>
        <input-bps>
          input-bps
        </input-bps>
        <output-bytes>
          output-bytes
        </output-bytes>
        <output-bps>
          output-bps
        </output-bps>
        <input-packets>
          input-packets
        </input-packets>
        <input-pps>
          input-pps
        </input-pps>
        <output-packets>
          output-packets
        </output-packets>
        <output-pps>
          output-pps
        </output-pps>
      </ipv6-multicast-statistics>
    </multicast-statistics>
  </physical-interface>
</interface-information>
```

**Description** IPv6 multicast statistics for interface

### <ipv6-multicast-statistics>

#### Usage

```
<interface-information>
  <physical-interface>
    <logical-interface>
      <multicast-statistics>
        <ipv6-multicast-statistics>
          <input-bytes>
            input-bytes
```

```
</input-bytes>
<input-bps>
  input-bps
</input-bps>
<output-bytes>
  output-bytes
</output-bytes>
<output-bps>
  output-bps
</output-bps>
<input-packets>
  input-packets
</input-packets>
<input-pps>
  input-pps
</input-pps>
<output-packets>
  output-packets
</output-packets>
<output-pps>
  output-pps
</output-pps>
</ipv6-multicast-statistics>
</multicast-statistics>
</logical-interface>
</physical-interface>
</interface-information>
```

**Description** IPv6 multicast statistics for interface

### <ipv6-multicast-statistics>

#### Usage

```
<interface-information>
<logical-interface>
  <multicast-statistics>
    <ipv6-multicast-statistics>
      <input-bytes>
        input-bytes
      </input-bytes>
      <input-bps>
        input-bps
      </input-bps>
      <output-bytes>
        output-bytes
      </output-bytes>
      <output-bps>
        output-bps
      </output-bps>
      <input-packets>
        input-packets
      </input-packets>
      <input-pps>
        input-pps
```

```

</input-pps>
<output-packets>
  output-packets
</output-packets>
<output-pps>
  output-pps
</output-pps>
</ipv6-multicast-statistics>
</multicast-statistics>
</logical-interface>
</interface-information>

```

**Description** IPv6 multicast statistics for interface

### <ipv6-multicast-statistics>

#### Usage

```

<interface-filter-information>
<physical-interface>
<multicast-statistics>
  <ipv6-multicast-statistics>
    <input-bytes>
      input-bytes
    </input-bytes>
    <input-bps>
      input-bps
    </input-bps>
    <output-bytes>
      output-bytes
    </output-bytes>
    <output-bps>
      output-bps
    </output-bps>
    <input-packets>
      input-packets
    </input-packets>
    <input-pps>
      input-pps
    </input-pps>
    <output-packets>
      output-packets
    </output-packets>
    <output-pps>
      output-pps
    </output-pps>
  </ipv6-multicast-statistics>
</multicast-statistics>
</physical-interface>
</interface-filter-information>

```

**Description** IPv6 multicast statistics for interface

## <ipv6-multicast-statistics>

### Usage

```
<interface-filter-information>
  <physical-interface>
    <logical-interface>
      <multicast-statistics>
        <ipv6-multicast-statistics>
          <input-bytes>
            input-bytes
          </input-bytes>
          <input-bps>
            input-bps
          </input-bps>
          <output-bytes>
            output-bytes
          </output-bytes>
          <output-bps>
            output-bps
          </output-bps>
          <input-packets>
            input-packets
          </input-packets>
          <input-pps>
            input-pps
          </input-pps>
          <output-packets>
            output-packets
          </output-packets>
          <output-pps>
            output-pps
          </output-pps>
        </ipv6-multicast-statistics>
      </multicast-statistics>
    </logical-interface>
  </physical-interface>
</interface-filter-information>
```

**Description**    IPV6 multicast statistics for interface

## <ipv6-multicast-statistics>

### Usage

```
<interface-filter-information>
  <logical-interface>
    <multicast-statistics>
      <ipv6-multicast-statistics>
        <input-bytes>
          input-bytes
        </input-bytes>
        <input-bps>
          input-bps
        </input-bps>
```

```

    <output-bytes>
      output-bytes
    </output-bytes>
    <output-bps>
      output-bps
    </output-bps>
    <input-packets>
      input-packets
    </input-packets>
    <input-pps>
      input-pps
    </input-pps>
    <output-packets>
      output-packets
    </output-packets>
    <output-pps>
      output-pps
    </output-pps>
  </ipv6-multicast-statistics>
</multicast-statistics>
</logical-interface>
</interface-filter-information>

```

**Description** IPv6 multicast statistics for interface

### <ipv6-multicast-statistics>

#### Usage

```

<interface-policer-information>
  <physical-interface>
    <multicast-statistics>
      <ipv6-multicast-statistics>
        <input-bytes>
          input-bytes
        </input-bytes>
        <input-bps>
          input-bps
        </input-bps>
        <output-bytes>
          output-bytes
        </output-bytes>
        <output-bps>
          output-bps
        </output-bps>
        <input-packets>
          input-packets
        </input-packets>
        <input-pps>
          input-pps
        </input-pps>
        <output-packets>
          output-packets
        </output-packets>
        <output-pps>

```

```
        output-pps
      </output-pps>
    </ipv6-multicast-statistics>
  </multicast-statistics>
</physical-interface>
</interface-policer-information>
```

**Description** IPV6 multicast statistics for interface

### <ipv6-multicast-statistics>

#### Usage

```
<interface-policer-information>
<physical-interface>
<logical-interface>
<multicast-statistics>
  <ipv6-multicast-statistics>
    <input-bytes>
      input-bytes
    </input-bytes>
    <input-bps>
      input-bps
    </input-bps>
    <output-bytes>
      output-bytes
    </output-bytes>
    <output-bps>
      output-bps
    </output-bps>
    <input-packets>
      input-packets
    </input-packets>
    <input-pps>
      input-pps
    </input-pps>
    <output-packets>
      output-packets
    </output-packets>
    <output-pps>
      output-pps
    </output-pps>
  </ipv6-multicast-statistics>
</multicast-statistics>
</logical-interface>
</physical-interface>
</interface-policer-information>
```

**Description** IPV6 multicast statistics for interface

### <ipv6-multicast-statistics>

#### Usage

```

<interface-policer-information>
  <logical-interface>
    <multicast-statistics>
      <ipv6-multicast-statistics>
        <input-bytes>
          input-bytes
        </input-bytes>
        <input-bps>
          input-bps
        </input-bps>
        <output-bytes>
          output-bytes
        </output-bytes>
        <output-bps>
          output-bps
        </output-bps>
        <input-packets>
          input-packets
        </input-packets>
        <input-pps>
          input-pps
        </input-pps>
        <output-packets>
          output-packets
        </output-packets>
        <output-pps>
          output-pps
        </output-pps>
      </ipv6-multicast-statistics>
    </multicast-statistics>
  </logical-interface>
</interface-policer-information>

```

**Description** IPv6 multicast statistics for interface

### <ipv6-total-statistics>

#### Usage

```

<traffic-statistics>
  <ipv6-total-statistics>
    <input-bytes>
      input-bytes
    </input-bytes>
    <output-bytes>
      output-bytes
    </output-bytes>
    <input-packets>
      input-packets
    </input-packets>
    <output-packets>

```

```
        output-packets
      </output-packets>
    </ipv6-total-statistics>
  </traffic-statistics>
```

#### Description

### <ipv6-total-statistics>

#### Usage

```
<transit-traffic-statistics>
  <ipv6-total-statistics>
    <input-bytes>
      input-bytes
    </input-bytes>
    <output-bytes>
      output-bytes
    </output-bytes>
    <input-packets>
      input-packets
    </input-packets>
    <output-packets>
      output-packets
    </output-packets>
  </ipv6-total-statistics>
</transit-traffic-statistics>
```

#### Description

### <ipv6-total-statistics>

#### Usage

```
<virtual-circuit-information>
  <traffic-statistics>
    <ipv6-total-statistics>
      <input-bytes>
        input-bytes
      </input-bytes>
      <output-bytes>
        output-bytes
      </output-bytes>
      <input-packets>
        input-packets
      </input-packets>
      <output-packets>
        output-packets
      </output-packets>
    </ipv6-total-statistics>
  </traffic-statistics>
</virtual-circuit-information>
```

#### Description

**<ipv6-total-statistics>****Usage**

```

<virtual-path-information>
  <traffic-statistics>
    <ipv6-total-statistics>
      <input-bytes>
        input-bytes
      </input-bytes>
      <output-bytes>
        output-bytes
      </output-bytes>
      <input-packets>
        input-packets
      </input-packets>
      <output-packets>
        output-packets
      </output-packets>
    </ipv6-total-statistics>
  </traffic-statistics>
</virtual-path-information>

```

**Description****<ipv6-total-statistics>****Usage**

```

<logical-interface>
  <traffic-statistics>
    <ipv6-total-statistics>
      <input-bytes>
        input-bytes
      </input-bytes>
      <output-bytes>
        output-bytes
      </output-bytes>
      <input-packets>
        input-packets
      </input-packets>
      <output-packets>
        output-packets
      </output-packets>
    </ipv6-total-statistics>
  </traffic-statistics>
</logical-interface>

```

**Description****<ipv6-total-statistics>****Usage**

```

<logical-interface>
  <transit-traffic-statistics>

```

```
<ipv6-total-statistics>
  <input-bytes>
    input-bytes
  </input-bytes>
  <output-bytes>
    output-bytes
  </output-bytes>
  <input-packets>
    input-packets
  </input-packets>
  <output-packets>
    output-packets
  </output-packets>
</ipv6-total-statistics>
</transit-traffic-statistics>
</logical-interface>
```

#### Description

<ipv6-total-statistics>

#### Usage

```
<logical-interface>
  <virtual-circuit-information>
    <traffic-statistics>
      <ipv6-total-statistics>
        <input-bytes>
          input-bytes
        </input-bytes>
        <output-bytes>
          output-bytes
        </output-bytes>
        <input-packets>
          input-packets
        </input-packets>
        <output-packets>
          output-packets
        </output-packets>
      </ipv6-total-statistics>
    </traffic-statistics>
  </virtual-circuit-information>
</logical-interface>
```

#### Description

<ipv6-total-statistics>

#### Usage

```
<physical-interface>
  <traffic-statistics>
    <ipv6-total-statistics>
      <input-bytes>
        input-bytes
      </input-bytes>
```

```

    <output-bytes>
      output-bytes
    </output-bytes>
    <input-packets>
      input-packets
    </input-packets>
    <output-packets>
      output-packets
    </output-packets>
  </ipv6-total-statistics>
</traffic-statistics>
</physical-interface>

```

### Description

#### <ipv6-total-statistics>

#### Usage

```

<physical-interface>
<virtual-path-information>
<traffic-statistics>
  <ipv6-total-statistics>
    <input-bytes>
      input-bytes
    </input-bytes>
    <output-bytes>
      output-bytes
    </output-bytes>
    <input-packets>
      input-packets
    </input-packets>
    <output-packets>
      output-packets
    </output-packets>
  </ipv6-total-statistics>
</traffic-statistics>
</virtual-path-information>
</physical-interface>

```

### Description

#### <ipv6-total-statistics>

#### Usage

```

<physical-interface>
<logical-interface>
<traffic-statistics>
  <ipv6-total-statistics>
    <input-bytes>
      input-bytes
    </input-bytes>
    <output-bytes>
      output-bytes
    </output-bytes>
  </ipv6-total-statistics>
</traffic-statistics>
</logical-interface>
</physical-interface>

```

```
<input-packets>
  input-packets
</input-packets>
<output-packets>
  output-packets
</output-packets>
</ipv6-total-statistics>
</traffic-statistics>
</logical-interface>
</physical-interface>
```

#### Description

**<ipv6-total-statistics>**

#### Usage

```
<physical-interface>
<logical-interface>
<transit-traffic-statistics>
  <ipv6-total-statistics>
    <input-bytes>
      input-bytes
    </input-bytes>
    <output-bytes>
      output-bytes
    </output-bytes>
    <input-packets>
      input-packets
    </input-packets>
    <output-packets>
      output-packets
    </output-packets>
  </ipv6-total-statistics>
</transit-traffic-statistics>
</logical-interface>
</physical-interface>
```

#### Description

**<ipv6-total-statistics>**

#### Usage

```
<physical-interface>
<logical-interface>
<virtual-circuit-information>
  <traffic-statistics>
    <ipv6-total-statistics>
      <input-bytes>
        input-bytes
      </input-bytes>
      <output-bytes>
        output-bytes
      </output-bytes>
      <input-packets>
```

```

        input-packets
      </input-packets>
    <output-packets>
      output-packets
    </output-packets>
  </ipv6-total-statistics>
</traffic-statistics>
</virtual-circuit-information>
</logical-interface>
</physical-interface>

```

#### Description

### <ipv6-total-statistics>

#### Usage

```

<interface-set>
  <traffic-statistics>
    <ipv6-total-statistics>
      <input-bytes>
        input-bytes
      </input-bytes>
      <output-bytes>
        output-bytes
      </output-bytes>
      <input-packets>
        input-packets
      </input-packets>
      <output-packets>
        output-packets
      </output-packets>
    </ipv6-total-statistics>
  </traffic-statistics>
</interface-set>

```

#### Description

### <ipv6-total-statistics>

#### Usage

```

<interface-information>
  <physical-interface>
    <traffic-statistics>
      <ipv6-total-statistics>
        <input-bytes>
          input-bytes
        </input-bytes>
        <output-bytes>
          output-bytes
        </output-bytes>
        <input-packets>
          input-packets
        </input-packets>
        <output-packets>

```

```
        output-packets
      </output-packets>
    </ipv6-total-statistics>
  </traffic-statistics>
</physical-interface>
</interface-information>
```

#### Description

### <ipv6-total-statistics>

#### Usage

```
<interface-information>
  <physical-interface>
    <virtual-path-information>
      <traffic-statistics>
        <ipv6-total-statistics>
          <input-bytes>
            input-bytes
          </input-bytes>
          <output-bytes>
            output-bytes
          </output-bytes>
          <input-packets>
            input-packets
          </input-packets>
          <output-packets>
            output-packets
          </output-packets>
        </ipv6-total-statistics>
      </traffic-statistics>
    </virtual-path-information>
  </physical-interface>
</interface-information>
```

#### Description

### <ipv6-total-statistics>

#### Usage

```
<interface-information>
  <physical-interface>
    <logical-interface>
      <traffic-statistics>
        <ipv6-total-statistics>
          <input-bytes>
            input-bytes
          </input-bytes>
          <output-bytes>
            output-bytes
          </output-bytes>
          <input-packets>
            input-packets
          </input-packets>
```

```

    <output-packets>
      output-packets
    </output-packets>
  </ipv6-total-statistics>
</traffic-statistics>
</logical-interface>
</physical-interface>
</interface-information>

```

#### Description

### <ipv6-total-statistics>

#### Usage

```

<interface-information>
  <physical-interface>
    <logical-interface>
      <transit-traffic-statistics>
        <ipv6-total-statistics>
          <input-bytes>
            input-bytes
          </input-bytes>
          <output-bytes>
            output-bytes
          </output-bytes>
          <input-packets>
            input-packets
          </input-packets>
          <output-packets>
            output-packets
          </output-packets>
        </ipv6-total-statistics>
      </transit-traffic-statistics>
    </logical-interface>
  </physical-interface>
</interface-information>

```

#### Description

### <ipv6-total-statistics>

#### Usage

```

<interface-information>
  <physical-interface>
    <logical-interface>
      <virtual-circuit-information>
        <traffic-statistics>
          <ipv6-total-statistics>
            <input-bytes>
              input-bytes
            </input-bytes>
            <output-bytes>
              output-bytes
            </output-bytes>
          </ipv6-total-statistics>

  output-packets
</output-packets>
</ipv6-total-statistics>
</traffic-statistics>
</virtual-circuit-information>
</logical-interface>
</physical-interface>
</interface-information>
```

#### Description

**<ipv6-total-statistics>**

#### Usage

```
<interface-information>
<logical-interface>
<traffic-statistics>
  <ipv6-total-statistics>
    <input-bytes>
      input-bytes
    </input-bytes>
    <output-bytes>
      output-bytes
    </output-bytes>
    <input-packets>
      input-packets
    </input-packets>
    <output-packets>
      output-packets
    </output-packets>
  </ipv6-total-statistics>
</traffic-statistics>
</logical-interface>
</interface-information>
```

#### Description

**<ipv6-total-statistics>**

#### Usage

```
<interface-information>
<logical-interface>
<transit-traffic-statistics>
  <ipv6-total-statistics>
    <input-bytes>
      input-bytes
    </input-bytes>
    <output-bytes>
      output-bytes
    </output-bytes>
```

```

    <input-packets>
      input-packets
    </input-packets>
    <output-packets>
      output-packets
    </output-packets>
  </ipv6-total-statistics>
</transit-traffic-statistics>
</logical-interface>
</interface-information>

```

### Description

#### <ipv6-total-statistics>

#### Usage

```

<interface-information>
  <logical-interface>
    <virtual-circuit-information>
      <traffic-statistics>
        <ipv6-total-statistics>
          <input-bytes>
            input-bytes
          </input-bytes>
          <output-bytes>
            output-bytes
          </output-bytes>
          <input-packets>
            input-packets
          </input-packets>
          <output-packets>
            output-packets
          </output-packets>
        </ipv6-total-statistics>
      </traffic-statistics>
    </virtual-circuit-information>
  </logical-interface>
</interface-information>

```

### Description

#### <ipv6-total-statistics>

#### Usage

```

<interface-information>
  <interface-set>
    <traffic-statistics>
      <ipv6-total-statistics>
        <input-bytes>
          input-bytes
        </input-bytes>
        <output-bytes>
          output-bytes
        </output-bytes>
      </ipv6-total-statistics>
    </traffic-statistics>
  </interface-set>
</interface-information>

```

```
<input-packets>
  input-packets
</input-packets>
<output-packets>
  output-packets
</output-packets>
</ipv6-total-statistics>
</traffic-statistics>
</interface-set>
</interface-information>
```

#### Description

### <ipv6-total-statistics>

#### Usage

```
<interface-filter-information>
<physical-interface>
<traffic-statistics>
  <ipv6-total-statistics>
    <input-bytes>
      input-bytes
    </input-bytes>
    <output-bytes>
      output-bytes
    </output-bytes>
    <input-packets>
      input-packets
    </input-packets>
    <output-packets>
      output-packets
    </output-packets>
  </ipv6-total-statistics>
</traffic-statistics>
</physical-interface>
</interface-filter-information>
```

#### Description

### <ipv6-total-statistics>

#### Usage

```
<interface-filter-information>
<physical-interface>
<virtual-path-information>
<traffic-statistics>
  <ipv6-total-statistics>
    <input-bytes>
      input-bytes
    </input-bytes>
    <output-bytes>
      output-bytes
    </output-bytes>
    <input-packets>
```

```

        input-packets
      </input-packets>
    <output-packets>
      output-packets
    </output-packets>
  </ipv6-total-statistics>
</traffic-statistics>
</virtual-path-information>
</physical-interface>
</interface-filter-information>

```

### Description

#### <ipv6-total-statistics>

##### Usage

```

<interface-filter-information>
  <physical-interface>
  <logical-interface>
    <traffic-statistics>
      <ipv6-total-statistics>
        <input-bytes>
          input-bytes
        </input-bytes>
        <output-bytes>
          output-bytes
        </output-bytes>
        <input-packets>
          input-packets
        </input-packets>
        <output-packets>
          output-packets
        </output-packets>
      </ipv6-total-statistics>
    </traffic-statistics>
  </logical-interface>
</physical-interface>
</interface-filter-information>

```

### Description

#### <ipv6-total-statistics>

##### Usage

```

<interface-filter-information>
  <physical-interface>
  <logical-interface>
    <transit-traffic-statistics>
      <ipv6-total-statistics>
        <input-bytes>
          input-bytes
        </input-bytes>
        <output-bytes>
          output-bytes

```

```
</output-bytes>
<input-packets>
  input-packets
</input-packets>
<output-packets>
  output-packets
</output-packets>
</ipv6-total-statistics>
</transit-traffic-statistics>
</logical-interface>
</physical-interface>
</interface-filter-information>
```

#### Description

### <ipv6-total-statistics>

#### Usage

```
<interface-filter-information>
<physical-interface>
<logical-interface>
  <virtual-circuit-information>
    <traffic-statistics>
      <ipv6-total-statistics>
        <input-bytes>
          input-bytes
        </input-bytes>
        <output-bytes>
          output-bytes
        </output-bytes>
        <input-packets>
          input-packets
        </input-packets>

      </ipv6-transit-statistics>
    </transit-traffic-statistics>
  </logical-interface>
</interface-policer-information>
```

## Description

### <ipv6-transit-statistics>

#### Usage

```
<interface-policer-information>
  <logical-interface>
    <virtual-circuit-information>
      <traffic-statistics>
        <ipv6-transit-statistics>
          <input-bytes>
            input-bytes
          </input-bytes>
          <output-bytes>
            output-bytes
          </output-bytes>
          <input-packets>
            input-packets
          </input-packets>
        </ipv6-transit-statistics>
      </traffic-statistics>
    </virtual-circuit-information>
  </logical-interface>
</interface-policer-information>
```

```

        </input-packets>
        <output-packets>
          output-packets
        </output-packets>
      </ipv6-transit-statistics>
    </traffic-statistics>
  </virtual-circuit-information>
</logical-interface>
</interface-policer-information>

```

#### Description

#### <irb-domain>

##### Usage

```

<irb-domain>
  <irb-routing-instance>
    irb-routing-instance
  </irb-routing-instance>
  <irb-bridge>
    irb-bridge
  </irb-bridge>
</irb-domain>

```

#### Description

#### <irb-domain>

##### Usage

```

<logical-interface>
  <irb-domain>
    <irb-routing-instance>
      irb-routing-instance
    </irb-routing-instance>
    <irb-bridge>
      irb-bridge
    </irb-bridge>
  </irb-domain>
</logical-interface>

```

#### Description

#### <irb-domain>

##### Usage

```

<physical-interface>
  <logical-interface>
    <irb-domain>
      <irb-routing-instance>
        irb-routing-instance
      </irb-routing-instance>
      <irb-bridge>
        irb-bridge
      </irb-bridge>
    </irb-domain>
  </logical-interface>
</physical-interface>

```

```
</irb-bridge>
</irb-domain>
</logical-interface>
</physical-interface>
```

#### Description

### <irb-domain>

#### Usage

```
<interface-information>
  <physical-interface>
    <logical-interface>
      <irb-domain>
        <irb-routing-instance>
          irb-routing-instance
        </irb-routing-instance>
        <irb-bridge>
          irb-bridge
        </irb-bridge>
      </irb-domain>
    </logical-interface>
  </physical-interface>
</interface-information>
```

#### Description

### <irb-domain>

#### Usage

```
<interface-information>
  <logical-interface>
    <irb-domain>
      <irb-routing-instance>
        irb-routing-instance
      </irb-routing-instance>
      <irb-bridge>
        irb-bridge
      </irb-bridge>
    </irb-domain>
  </logical-interface>
</interface-information>
```

#### Description

### <irb-domain>

#### Usage

```
<interface-filter-information>
  <physical-interface>
    <logical-interface>
      <irb-domain>
        <irb-routing-instance>
```

```

        irb-routing-instance
      </irb-routing-instance>
    <irb-bridge>
      irb-bridge
    </irb-bridge>
  </irb-domain>
</logical-interface>
</physical-interface>
</interface-filter-information>

```

#### Description

#### <irb-domain>

##### Usage

```

<interface-filter-information>
  <logical-interface>
    <irb-domain>
      <irb-routing-instance>
        irb-routing-instance
      </irb-routing-instance>

  cascade-port
</cascade-port>
</jswitch-port>
</jswitch-port-information>

```

#### Description

### <jswitch-port-information>

#### Usage

```

<jswitch-port-information>
  <jswitch-port>....</jswitch-port>
</jswitch-port-information>

```

#### Description

### <keepalive-config>

#### Usage

```

<keepalive-config>
  <keepalive-interval>
    keepalive-interval
  </keepalive-interval>
  <keepalive-up-count>
    keepalive-up-count
  </keepalive-up-count>
  <keepalive-down-count>
    keepalive-down-count
  </keepalive-down-count>
</keepalive-config>

```

**Description** Configured keepalive settings on this interface

### <keepalive-config>

#### Usage

```

<logical-interface>
  <keepalive-config>
    <keepalive-interval>
      keepalive-interval
    </keepalive-interval>
    <keepalive-up-count>
      keepalive-up-count
    </keepalive-up-count>
    <keepalive-down-count>
      keepalive-down-count
    </keepalive-down-count>
  </keepalive-config>
</logical-interface>

```

**Description** Configured keepalive settings on this interface

### <keepalive-config>

#### Usage

```
<physical-interface>
  <keepalive-config>
    <keepalive-interval>
      keepalive-interval
    </keepalive-interval>
    <keepalive-up-count>
      keepalive-up-count
    </keepalive-up-count>
    <keepalive-down-count>
      keepalive-down-count
    </keepalive-down-count>
  </keepalive-config>
</physical-interface>
```

**Description** Configured keepalive settings on this interface

### <keepalive-config>

#### Usage

```
<physical-interface>
  <logical-interface>
    <keepalive-config>
      <keepalive-interval>
        keepalive-interval
      </keepalive-interval>
      <keepalive-up-count>
        keepalive-up-count
      </keepalive-up-count>
      <keepalive-down-count>
        keepalive-down-count
      </keepalive-down-count>
    </keepalive-config>
  </logical-interface>
</physical-interface>
```

**Description** Configured keepalive settings on this interface

### <keepalive-config>

#### Usage

```
<interface-information>
  <physical-interface>
    <keepalive-config>
      <keepalive-interval>
        keepalive-interval
      </keepalive-interval>
      <keepalive-up-count>
```

```

        keepalive-up-count
      </keepalive-up-count>
      <keepalive-down-count>
        keepalive-down-count
      </keepalive-down-count>
    </keepalive-config>
  </physical-interface>
</interface-information>

```

**Description** Configured keepalive settings on this interface

### <keepalive-config>

#### Usage

```

<interface-information>
  <physical-interface>
    <logical-interface>
      <keepalive-config>
        <keepalive-interval>
          keepalive-interval
        </keepalive-interval>
        <keepalive-up-count>
          keepalive-up-count
        </keepalive-up-count>
        <keepalive-down-count>
          keepalive-down-count
        </keepalive-down-count>
      </keepalive-config>
    </logical-interface>
  </physical-interface>
</interface-information>

```

**Description** Configured keepalive settings on this interface

### <keepalive-config>

#### Usage

```

<interface-information>
  <logical-interface>
    <keepalive-config>
      <keepalive-interval>
        keepalive-interval
      </keepalive-interval>
      <keepalive-up-count>
        keepalive-up-count
      </keepalive-up-count>
      <keepalive-down-count>
        keepalive-down-count
      </keepalive-down-count>
    </keepalive-config>
  </logical-interface>

```

```
</interface-information>
```

**Description** Configured keepalive settings on this interface

### <keepalive-config>

#### Usage

```
<interface-filter-information>
<physical-interface>
  <keepalive-config>
    <keepalive-interval>
      keepalive-interval
    </keepalive-interval>
    <keepalive-up-count>
      keepalive-up-count
    </keepalive-up-count>
    <keepalive-down-count>
      keepalive-down-count
    </keepalive-down-count>
  </keepalive-config>
</physical-interface>
</interface-filter-information>
```

**Description** Configured keepalive settings on this interface

### <keepalive-config>

#### Usage

```
<interface-filter-information>
<physical-interface>
  <logical-interface>
    <keepalive-config>
      <keepalive-interval>
        keepalive-interval
      </keepalive-interval>
      <keepalive-up-count>
        keepalive-up-count
      </keepalive-up-count>
      <keepalive-down-count>
        keepalive-down-count
      </keepalive-down-count>
    </keepalive-config>
  </logical-interface>
</physical-interface>
</interface-filter-information>
```

**Description** Configured keepalive settings on this interface

**<keepalive-config>****Usage**

```

<interface-filter-information>
  <logical-interface>
    <keepalive-config>
      <keepalive-interval>
        keepalive-interval
      </keepalive-interval>
      <keepalive-up-count>
        keepalive-up-count
      </keepalive-up-count>
      <keepalive-down-count>
        keepalive-down-count
      </keepalive-down-count>
    </keepalive-config>
  </logical-interface>
</interface-filter-information>

```

**Description** Configured keepalive settings on this interface

**<keepalive-config>****Usage**

```

<interface-policer-information>
  <physical-interface>
    <keepalive-config>
      <keepalive-interval>
        keepalive-interval
      </keepalive-interval>
      <keepalive-up-count>
        keepalive-up-count
      </keepalive-up-count>
      <keepalive-down-count>
        keepalive-down-count
      </keepalive-down-count>
    </keepalive-config>
  </physical-interface>
</interface-policer-information>

```

**Description** Configured keepalive settings on this interface

**<keepalive-config>****Usage**

```

<interface-policer-information>
  <physical-interface>
    <logical-interface>
      <keepalive-config>
        <keepalive-interval>
          keepalive-interval
        </keepalive-interval>

```

```
<keepalive-up-count>
  keepalive-up-count
</keepalive-up-count>
<keepalive-down-count>
  keepalive-down-count
</keepalive-down-count>
</keepalive-config>
</logical-interface>
</physical-interface>
</interface-policer-information>
```

**Description** Configured keepalive settings on this interface

### <keepalive-config>

#### Usage

```
<interface-policer-information>
<logical-interface>
  <keepalive-config>
    <keepalive-interval>
      keepalive-interval
    </keepalive-interval>
    <keepalive-up-count>
      keepalive-up-count
    </keepalive-up-count>
    <keepalive-down-count>
      keepalive-down-count
    </keepalive-down-count>
  </keepalive-config>
</logical-interface>
</interface-policer-information>
```

**Description** Configured keepalive settings on this interface

### <keepalive-statistics>

#### Usage

```
<keepalive-statistics>
  <keepalive-lmi-descriptor>
    keepalive-lmi-descriptor
  </keepalive-lmi-descriptor>
  <keepalive-input-count>
    keepalive-input-count
  </keepalive-input-count>
  <keepalive-input-time>
    keepalive-input-time
  </keepalive-input-time>
  <keepalive-output-count>
    keepalive-output-count
  </keepalive-output-count>
  <keepalive-output-time>
    keepalive-output-time
```

```

    </keepalive-output-time>
  </keepalive-statistics>

```

**Description** Keepalive statistics for this interface

### <keepalive-statistics>

#### Usage

```

<logical-interface>
  <keepalive-statistics>
    <keepalive-lmi-descriptor>
      keepalive-lmi-descriptor
    </keepalive-lmi-descriptor>
    <keepalive-input-count>
      keepalive-input-count
    </keepalive-input-count>
    <keepalive-input-time>
      keepalive-input-time
    </keepalive-input-time>
    <keepalive-output-count>
      keepalive-output-count
    </keepalive-output-count>
    <keepalive-output-time>
      keepalive-output-time
    </keepalive-output-time>
  </keepalive-statistics>
</logical-interface>

```

**Description** Keepalive statistics for this interface

### <keepalive-statistics>

#### Usage

```

<physical-interface>
  <keepalive-statistics>
    <keepalive-lmi-descriptor>
      keepalive-lmi-descriptor
    </keepalive-lmi-descriptor>
    <keepalive-input-count>
      keepalive-input-count
    </keepalive-input-count>
    <keepalive-input-time>
      keepalive-input-time
    </keepalive-input-time>
    <keepalive-output-count>
      keepalive-output-count
    </keepalive-output-count>
    <keepalive-output-time>
      keepalive-output-time
    </keepalive-output-time>
  </keepalive-statistics>

```

```
</physical-interface>
```

**Description**    Keepalive statistics for this interface

### <keepalive-statistics>

#### Usage

```
<physical-interface>
<logical-interface>
  <keepalive-statistics>
    <keepalive-lmi-descriptor>
      keepalive-lmi-descriptor
    </keepalive-lmi-descriptor>
    <keepalive-input-count>
      keepalive-input-count
    </keepalive-input-count>
    <keepalive-input-time>
      keepalive-input-time
    </keepalive-input-time>
    <keepalive-output-count>
      keepalive-output-count
    </keepalive-output-count>
    <keepalive-output-time>
      keepalive-output-time
    </keepalive-output-time>
  </keepalive-statistics>
</logical-interface>
</physical-interface>
```

**Description**    Keepalive statistics for this interface

### <keepalive-statistics>

#### Usage

```
<interface-information>
<physical-interface>
  <keepalive-statistics>
    <keepalive-lmi-descriptor>
      keepalive-lmi-descriptor
    </keepalive-lmi-descriptor>
    <keepalive-input-count>
      keepalive-input-count
    </keepalive-input-count>
    <keepalive-input-time>
      keepalive-input-time
    </keepalive-input-time>
    <keepalive-output-count>
      keepalive-output-count
    </keepalive-output-count>
    <keepalive-output-time>
      keepalive-output-time
    </keepalive-output-time>
```

```

    </keepalive-statistics>
  </physical-interface>
</interface-information>

```

**Description** Keepalive statistics for this interface

## <keepalive-statistics>

### Usage

```

<interface-information>
  <physical-interface>
    <logical-interface>
      <keepalive-statistics>
        <keepalive-lmi-descriptor>
          keepalive-lmi-descriptor
        </keepalive-lmi-descriptor>
        <keepalive-input-count>
          keepalive-input-count
        </keepalive-input-count>
        <keepalive-input-time>
          keepalive-input-time
        </keepalive-input-time>
        <keepalive-output-count>
          keepalive-output-count
        </keepalive-output-count>
        <keepalive-output-time>
          keepalive-output-time
        </keepalive-output-time>
      </keepalive-statistics>
    </logical-interface>
  </physical-interface>
</interface-information>

```

**Description** Keepalive statistics for this interface

## <keepalive-statistics>

### Usage

```

<interface-information>
  <logical-interface>
    <keepalive-statistics>
      <keepalive-lmi-descriptor>
        keepalive-lmi-descriptor
      </keepalive-lmi-descriptor>
      <keepalive-input-count>
        keepalive-input-count
      </keepalive-input-count>
      <keepalive-input-time>
        keepalive-input-time
      </keepalive-input-time>
      <keepalive-output-count>
        keepalive-output-count

```

```
</keepalive-output-count>

</interface-policer-information>

```

**Description** Keepalive statistics for this interface

## <l2circuit-info>

### Usage

```

<l2circuit-info>
  <cell-bundle-size>
    cell-bundle-size
  </cell-bundle-size>
  <cell-bundle-timeout>
    cell-bundle-timeout
  </cell-bundle-timeout>
  <cell-timeout-count>
    cell-timeout-count
  </cell-timeout-count>
  <out-of-sequence>
    out-of-sequence
  </out-of-sequence>
</l2circuit-info>

```

### Description

## <l2circuit-info>

### Usage

```

<logical-interface>
  <l2circuit-info>
    <cell-bundle-size>
      cell-bundle-size
    </cell-bundle-size>
    <cell-bundle-timeout>
      cell-bundle-timeout
    </cell-bundle-timeout>
    <cell-timeout-count>
      cell-timeout-count

```

```
</cell-timeout-count>
<out-of-sequence>
  out-of-sequence
</out-of-sequence>
</l2circuit-info>
</logical-interface>
```

#### Description

### <l2circuit-info>

#### Usage

```
<physical-interface>
<logical-interface>
  <l2circuit-info>
    <cell-bundle-size>
      cell-bundle-size
    </cell-bundle-size>
    <cell-bundle-timeout>
      cell-bundle-timeout
    </cell-bundle-timeout>
    <cell-timeout-count>
      cell-timeout-count
    </cell-timeout-count>
    <out-of-sequence>
      out-of-sequence
    </out-of-sequence>
  </l2circuit-info>
</logical-interface>
</physical-interface>
```

#### Description

### <l2circuit-info>

#### Usage

```
<interface-information>
<physical-interface>
<logical-interface>
  <l2circuit-info>
    <cell-bundle-size>
      cell-bundle-size
    </cell-bundle-size>
    <cell-bundle-timeout>
      cell-bundle-timeout
    </cell-bundle-timeout>
    <cell-timeout-count>
      cell-timeout-count
    </cell-timeout-count>
    <out-of-sequence>
      out-of-sequence
    </out-of-sequence>
  </l2circuit-info>
</logical-interface>
```

```

    </physical-interface>
  </interface-information>

```

## Description

### <l2circuit-info>

#### Usage

```

<interface-information>
  <logical-interface>
    <l2circuit-info>
      <cell-bundle-size>
        cell-bundle-size
      </cell-bundle-size>
      <cell-bundle-timeout>
        cell-bundle-timeout
      </cell-bundle-timeout>
      <cell-timeout-count>
        cell-timeout-count
      </cell-timeout-count>
      <out-of-sequence>
        out-of-sequence
      </out-of-sequence>
    </l2circuit-info>
  </logical-interface>
</interface-information>

```

```

**Description** LFI frame statistics for multilink bundles and classes

## <line-protocol>

### Usage

```

<serial-information>
  <line-protocol>
    <line-protocol-mode>
      line-protocol-mode
    </line-protocol-mode>
  </line-protocol>
</serial-information>

```

**Description**

## <line-protocol>

### Usage

```

<physical-interface>
  <serial-information>
    <line-protocol>
      <line-protocol-mode>

```

```

        line-protocol-mode
      </line-protocol-mode>
    </line-protocol>
  </serial-information>
</physical-interface>

```

#### Description

<line-protocol>

#### Usage

```

<interface-information>
  <physical-interface>
    <serial-information>
      <line-protocol>
        <line-protocol-mode>
          line-protocol-mode
        </line-protocol-mode>
      </line-protocol>
    </serial-information>
  </physical-interface>
</interface-information>

```

#### Description

<line-protocol>

#### Usage

```

<interface-filter-information>
  <physical-interface>
    <serial-information>
      <line-protocol>
        <line-protocol-mode>
          line-protocol-mode
        </line-protocol-mode>
      </line-protocol>
    </serial-information>
  </physical-interface>
</interface-filter-information>

```

#### Description

<line-protocol>

#### Usage

```

<interface-policer-information>
  <physical-interface>
    <serial-information>
      <line-protocol>
        <line-protocol-mode>
          line-protocol-mode
        </line-protocol-mode>
      </line-protocol>
    </serial-information>

```

```

    </serial-information>
  </physical-interface>
</interface-policer-information>

```

#### Description

### <linear-red-drop-profile>

#### Usage

```

<atm-cos-queue-parameters>
  <linear-red-drop-profile>
    <queue-depth>
      queue-depth
    </queue-depth>
    <low-red>
      low-red
    </low-red>
    <high-red>
      high-red
    </high-red>
    <max-low-red>
      max-low-red
    </max-low-red>
    <max-high-red>
      max-high-red
    </max-high-red>
  </linear-red-drop-profile>
</atm-cos-queue-parameters>

```

#### Description

### <linear-red-drop-profile>

#### Usage

```

<atm-cos-queue>
  <atm-cos-queue-parameters>
    <linear-red-drop-profile>
      <queue-depth>
        queue-depth
      </queue-depth>
      <low-red>
        low-red
      </low-red>
      <high-red>
        high-red
      </high-red>
      <max-low-red>
        max-low-red
      </max-low-red>
      <max-high-red>
        max-high-red
      </max-high-red>
    </linear-red-drop-profile>
  </atm-cos-queue-parameters>

```

</atm-cos-queue>

#### Description

### <linear-red-drop-profile>

#### Usage

```
<atm-cos-information>
  <atm-cos-queue>
    <atm-cos-queue-parameters>
      <linear-red-drop-profile>
        <queue-depth>
          queue-depth
        </queue-depth>
        <low-red>
          low-red
        </low-red>
        <high-red>
          high-red
        </high-red>
        <max-low-red>
          max-low-red
        </max-low-red>
        <max-high-red>
          max-high-red
        </max-high-red>
      </linear-red-drop-profile>
    </atm-cos-queue-parameters>
  </atm-cos-queue>
</atm-cos-information>
```

#### Description

### <linear-red-drop-profile>

#### Usage

```
<virtual-circuit-information>
  <atm-cos-information>
    <atm-cos-queue>
      <atm-cos-queue-parameters>
        <linear-red-drop-profile>
          <queue-depth>
            queue-depth
          </queue-depth>
          <low-red>
            low-red
          </low-red>
          <high-red>
            high-red
          </high-red>

#### Usage

```
<interface-filter-information>
<physical-interface>
  <logical-interface>
    <mac-policer-information>
      <mac-address>
        mac-address
```

```

</mac-address>
<mac-entry-type>
  mac-entry-type
</mac-entry-type>
<receive-bytes>
  receive-bytes
</receive-bytes>
<transmit-bytes>
  transmit-bytes
</transmit-bytes>
<receive-frames>
  receive-frames
</receive-frames>
<transmit-frames>
  transmit-frames
</transmit-frames>
<ether-policer-list>....</ether-policer-list>
</mac-policer-information>
</logical-interface>
</physical-interface>
</interface-filter-information>

```

## Description

### <mac-policer-information>

#### Usage

```

<interface-filter-information>
<logical-interface>
  <mac-policer-information>
    <mac-address>
      mac-address
    </mac-address>
    <mac-entry-type>
      mac-entry-type
    </mac-entry-type>
    <receive-bytes>
      receive-bytes
    </receive-bytes>
    <transmit-bytes>
      transmit-bytes
    </transmit-bytes>
    <receive-frames>
      receive-frames
    </receive-frames>
    <transmit-frames>
      transmit-frames
    </transmit-frames>
    <ether-policer-list>....</ether-policer-list>
  </mac-policer-information>
</logical-interface>
</interface-filter-information>

```

## Description

## <mac-policer-information>

### Usage

```
<interface-policer-information>
  <physical-interface>
  <logical-interface>
    <mac-policer-information>
      <mac-address>
        mac-address
      </mac-address>
      <mac-entry-type>
        mac-entry-type
      </mac-entry-type>
      <receive-bytes>
        receive-bytes
      </receive-bytes>
      <transmit-bytes>
        transmit-bytes
      </transmit-bytes>
      <receive-frames>
        receive-frames
      </receive-frames>
      <transmit-frames>
        transmit-frames
      </transmit-frames>
      <ether-policer-list>....</ether-policer-list>
    </mac-policer-information>
  </logical-interface>
</physical-interface>
</interface-policer-information>
```

### Description

## <mac-policer-information>

### Usage

```
<interface-policer-information>
  <logical-interface>
    <mac-policer-information>
      <mac-address>
        mac-address
      </mac-address>

          instant-usage-weight-exponent
        </instant-usage-weight-exponent>
      </physical-interface-red-buffer-occupancy>
    </physical-interface-cos-information>
  </physical-interface>
</interface-information>

```

```
</physical-interface>
</interface-information>
```

**Description** Type of buffer occupancy information used for performing random early drop on the interface

### <physical-interface-red-buffer-occupancy>

#### Usage

```
<interface-filter-information>
  <physical-interface>
    <physical-interface-cos-information>
      <physical-interface-red-buffer-occupancy>
        <instant-usage-weight-exponent>
          instant-usage-weight-exponent
        </instant-usage-weight-exponent>
      </physical-interface-red-buffer-occupancy>
    </physical-interface-cos-information>
  </physical-interface>
</interface-filter-information>
```

**Description** Type of buffer occupancy information used for performing random early drop on the interface

### <physical-interface-red-buffer-occupancy>

#### Usage

```
<interface-policer-information>
  <physical-interface>
    <physical-interface-cos-information>
      <physical-interface-red-buffer-occupancy>
        <instant-usage-weight-exponent>
          instant-usage-weight-exponent
        </instant-usage-weight-exponent>
      </physical-interface-red-buffer-occupancy>
    </physical-interface-cos-information>
  </physical-interface>
</interface-policer-information>
```

**Description** Type of buffer occupancy information used for performing random early drop on the interface

### <plcp-defects>

#### Usage

```
<atm-information>
  <plcp-defects>
    <media-alarm>....</media-alarm>
  </plcp-defects>
```

</atm-information>

#### Description

<plcp-defects>

#### Usage

```
<physical-interface>
  <atm-information>
    <plcp-defects>
      <media-alarm>....</media-alarm>
    </plcp-defects>
  </atm-information>
</physical-interface>
```

#### Description

<plcp-defects>

#### Usage

```
<interface-information>
  <physical-interface>
    <atm-information>
      <plcp-defects>
        <media-alarm>....</media-alarm>
      </plcp-defects>
    </atm-information>
  </physical-interface>
</interface-information>
```

#### Description

<plcp-defects>

#### Usage

```
<interface-filter-information>
  <physical-interface>
    <atm-information>
      <plcp-defects>
        <media-alarm>....</media-alarm>
      </plcp-defects>
    </atm-information>
  </physical-interface>
</interface-filter-information>
```

#### Description

<plcp-defects>

#### Usage

```
<interface-policer-information>
  <physical-interface>
```

```
<atm-information>
  <plcp-defects>
    <media-alarm>....</media-alarm>
  </plcp-defects>
</atm-information>
</physical-interface>
</interface-policer-information>
```

#### Description

### <plcp-statistics>

#### Usage

```
<atm-information>
  <plcp-statistics>
    <ferr-count>
      ferr-count
    </ferr-count>
    <ferr-seconds>
      ferr-seconds
    </ferr-seconds>
    <bipe-count>
      bipe-count
    </bipe-count>
    <bipe-seconds>
      bipe-seconds
    </bipe-seconds>
    <febe-count>
      febe-count
    </febe-count>
    <febe-seconds>
      febe-seconds
    </febe-seconds>
  </plcp-statistics>
</atm-information>
```

#### Description

### <plcp-statistics>

#### Usage

```
<physical-interface>
  <atm-information>
    <plcp-statistics>
      <ferr-count>
        ferr-count
      </ferr-count>
      <ferr-seconds>
        ferr-seconds
      </ferr-seconds>
      <bipe-count>
        bipe-count
      </bipe-count>
      <bipe-seconds>
```

```

        bipe-seconds
      </bipe-seconds>
    <febe-count>
      febe-count
    </febe-count>
    <febe-seconds>
      febe-seconds
    </febe-seconds>
  </plcp-statistics>
</atm-information>
</physical-interface>

```

#### Description

#### <plcp-statistics>

##### Usage

```

<interface-information>
  <physical-interface>
    <atm-information>
      <plcp-statistics>
        <ferr-count>
          ferr-count
        </ferr-count>
        <ferr-seconds>
          ferr-seconds
        </ferr-seconds>
        <bipe-count>
          bipe-count
        </bipe-count>
        <bipe-seconds>
          bipe-seconds
        </bipe-seconds>
        <febe-count>
          febe-count
        </febe-count>
        <febe-seconds>

    <iff-ppp-flags-pfc>
      iff-ppp-flags-pfc
    </iff-ppp-flags-pfc>
  </ppp-flags>
</logical-interface>

```

**Description****<ppp-flags>****Usage**

```

<physical-interface>
  <ppp-flags>
    <iff-ppp-flags-acfc>
      iff-ppp-flags-acfc
    </iff-ppp-flags-acfc>
    <iff-ppp-flags-pfc>
      iff-ppp-flags-pfc
    </iff-ppp-flags-pfc>
  </ppp-flags>
</physical-interface>

```

**Description****<ppp-flags>****Usage**

```

<physical-interface>
  <logical-interface>
    <ppp-flags>
      <iff-ppp-flags-acfc>
        iff-ppp-flags-acfc
      </iff-ppp-flags-acfc>
      <iff-ppp-flags-pfc>
        iff-ppp-flags-pfc
      </iff-ppp-flags-pfc>
    </ppp-flags>
  </logical-interface>
</physical-interface>

```

**Description**

## <ppp-flags>

### Usage

```
<interface-information>
  <physical-interface>
    <ppp-flags>
      <iff-ppp-flags-acfc>
        iff-ppp-flags-acfc
      </iff-ppp-flags-acfc>
      <iff-ppp-flags-pfc>
        iff-ppp-flags-pfc
      </iff-ppp-flags-pfc>
    </ppp-flags>
  </physical-interface>
</interface-information>
```

### Description

## <ppp-flags>

### Usage

```
<interface-information>
  <physical-interface>
    <logical-interface>
      <ppp-flags>
        <iff-ppp-flags-acfc>
          iff-ppp-flags-acfc
        </iff-ppp-flags-acfc>
        <iff-ppp-flags-pfc>
          iff-ppp-flags-pfc
        </iff-ppp-flags-pfc>
      </ppp-flags>
    </logical-interface>
  </physical-interface>
</interface-information>
```

### Description

## <ppp-flags>

### Usage

```
<interface-information>
  <logical-interface>
    <ppp-flags>
      <iff-ppp-flags-acfc>
        iff-ppp-flags-acfc
      </iff-ppp-flags-acfc>
      <iff-ppp-flags-pfc>
        iff-ppp-flags-pfc
      </iff-ppp-flags-pfc>
    </ppp-flags>
  </logical-interface>
```

```
</interface-information>
```

#### Description

**<ppp-flags>**

#### Usage

```
<interface-filter-information>

  </logical-interface>
</interface-policer-information>

```

**Description** Queue counter statistics

## <queue-num-forwarding-class-name-map>

### Usage

```

<ingress-queue-counters>
  <queue-num-forwarding-class-name-map>
    <queue-number>
      queue-number
    </queue-number>
    <forwarding-class-name>
      forwarding-class-name
    </forwarding-class-name>
  </queue-num-forwarding-class-name-map>
</ingress-queue-counters>

```

**Description**

## <queue-num-forwarding-class-name-map>

### Usage

```

<logical-interface>
  <ingress-queue-counters>
    <queue-num-forwarding-class-name-map>
      <queue-number>
        queue-number
      </queue-number>
      <forwarding-class-name>
        forwarding-class-name
      </forwarding-class-name>
    </queue-num-forwarding-class-name-map>
  </ingress-queue-counters>
</logical-interface>

```

**Description**

## <queue-num-forwarding-class-name-map>

### Usage

```
<physical-interface>
  <logical-interface>
    <ingress-queue-counters>
      <queue-num-forwarding-class-name-map>
        <queue-number>
          queue-number
        </queue-number>
        <forwarding-class-name>
          forwarding-class-name
        </forwarding-class-name>
      </queue-num-forwarding-class-name-map>
    </ingress-queue-counters>
  </logical-interface>
</physical-interface>
```

### Description

## <queue-num-forwarding-class-name-map>

### Usage

```
<physical-interface>
  <queue-num-forwarding-class-name-map>
    <queue-number>
      queue-number
    </queue-number>
    <forwarding-class-name>
      forwarding-class-name
    </forwarding-class-name>
  </queue-num-forwarding-class-name-map>
</physical-interface>
```

### Description

## <queue-num-forwarding-class-name-map>

### Usage

```
<physical-interface>
  <ingress-queue-counters>
    <queue-num-forwarding-class-name-map>
      <queue-number>
        queue-number
      </queue-number>
      <forwarding-class-name>
        forwarding-class-name
      </forwarding-class-name>
    </queue-num-forwarding-class-name-map>
  </ingress-queue-counters>
</physical-interface>
```

## Description

## &lt;queue-num-forwarding-class-name-map&gt;

## Usage

```

<interface-set>
  <interface-set-queue-information>
    <ingress-queue-counters>
      <queue-num-forwarding-class-name-map>
        <queue-number>
          queue-number
        </queue-number>
        <forwarding-class-name>
          forwarding-class-name
        </forwarding-class-name>
      </queue-num-forwarding-class-name-map>
    </ingress-queue-counters>
  </interface-set-queue-information>
</interface-set>

```

## Description

## &lt;queue-num-forwarding-class-name-map&gt;

## Usage

```

<queue-num-forwarding-class-name-map>
  <queue-number>
    queue-number
  </queue-number>
  <forwarding-class-name>
    forwarding-class-name
  </forwarding-class-name>
</queue-num-forwarding-class-name-map>

```

## Description

## &lt;queue-num-forwarding-class-name-map&gt;

## Usage

```

<interface-information>
  <physical-interface>
    <logical-interface>
      <ingress-queue-counters>
        <queue-num-forwarding-class-name-map>

```

**Description** Unicast reverse-path forwarding (RPF) statistics

## <satop-information>

### Usage

```
<satop-information>
  <ce-payload-size>
    ce-payload-size
  </ce-payload-size>
  <ce-idle-pattern>
    ce-idle-pattern
  </ce-idle-pattern>
  <ce-octet-aligned>
    ce-octet-aligned
  </ce-octet-aligned>
  <ce-jitter-buffer-packets>
    ce-jitter-buffer-packets
  </ce-jitter-buffer-packets>
  <ce-jitter-buffer-latency>
    ce-jitter-buffer-latency
  </ce-jitter-buffer-latency>
  <ce-jitter-buffer-auto-adjust>
    ce-jitter-buffer-auto-adjust
  </ce-jitter-buffer-auto-adjust>
  <ce-excessive-packet-loss-rate-sample-period>
    ce-excessive-packet-loss-rate-sample-period
  </ce-excessive-packet-loss-rate-sample-period>
  <ce-excessive-packet-loss-rate-threshold>
    ce-excessive-packet-loss-rate-threshold
  </ce-excessive-packet-loss-rate-threshold>
</satop-information>
```

### Description

## <satop-information>

### Usage

```
<physical-interface>
  <satop-information>
    <ce-payload-size>
      ce-payload-size
    </ce-payload-size>
    <ce-idle-pattern>
      ce-idle-pattern
    </ce-idle-pattern>
```

```

<ce-octet-aligned>
  ce-octet-aligned
</ce-octet-aligned>
<ce-jitter-buffer-packets>
  ce-jitter-buffer-packets
</ce-jitter-buffer-packets>
<ce-jitter-buffer-latency>
  ce-jitter-buffer-latency
</ce-jitter-buffer-latency>
<ce-jitter-buffer-auto-adjust>
  ce-jitter-buffer-auto-adjust
</ce-jitter-buffer-auto-adjust>
<ce-excessive-packet-loss-rate-sample-period>
  ce-excessive-packet-loss-rate-sample-period
</ce-excessive-packet-loss-rate-sample-period>
<ce-excessive-packet-loss-rate-threshold>
  ce-excessive-packet-loss-rate-threshold
</ce-excessive-packet-loss-rate-threshold>
</satop-information>
</physical-interface>

```

#### Description

#### <satop-information>

#### Usage

```
