

Chapter 58

DTD for Subscribers Response Tags

This chapter contains the Extensible Markup Language (XML) document type definition (DTD) called `junos-subscribers.dtd`, which lists the JUNOS XML tags that contain information about Subscribers. The associated XML namespace is <http://xml.juniper.net/junos/9.3R1/junos-subscribers>. To review reference pages for the tags, see “Summary of Subscribers Response Tags” on page 1560.
