

Part 1

Settings File for MPLS Network Operations Guide

Use the settings file for your book to set the values for variables across a book. Copy the `setting-file-variables-junos.fm` template file to your book directory and rename that file to match your book (for example, `setting-file-cfg-SB.fm`).

CAUTION: Do not import formats other than variable definitions from this file. Doing so may change other formats to styles that are not supported.

Defining Variables

Change the variable definitions in the table below to match your book, then import the variables into all files of your book.

Variable Name	Variable Definition (Placeholder Text)	Example
Book Title	MPLS Network Operations Guide	MPLS Network Operations Guide
BookTitleHeader	MPLS Network Operations Guide	MPLS Network Operations Guide
Part Number	Part Number: 530-012279-01 Pub, Revision 1	Part Number: 530-012279-01 Pub, Revision 1
Publish Date	31 March 2005	31 March 2005
Publish Year	2005	2005
Release number	Release x.x.x	
Revision	Revision 1	Revision 1
URL	www.juniper.net	www.juniper.net

To change a variable definition:

1. Double-click an entry in the Variable Definition column. The Variables window appears.

2. Click Edit.
3. Enter a new definition for your book.
4. Click Change.
5. Repeat this procedure for each variable in the table.
6. If you have other variables for your book that do not appear in this table:
 - a. Add a row to the table for each variable.
 - b. Add the variable name under Variable, and insert the variable under Definition.

Variables for the JUNOS Documentation Set

Table of Variables: Sorted by Book Category	
Variable	Book Name
JUNOS Configuration Guides	
z-cfg-FG	<i>JUNOS Feature Guide</i>
z-cfg-FIPS	<i>JUNOS-FIPS Configuration Guide</i>
z-cfg-MA	<i>JUNOS MPLS Applications Configuration Guide</i>
z-cfg-MC	<i>JUNOS Multicast Protocols Configuration Guide</i>
z-cfg-IC	<i>JUNOS Network Interfaces and Class of Service Configuration Guide</i>
z-cfg-NM	<i>JUNOS Network Management Configuration Guide</i>
z-cfg-PF	<i>JUNOS Policy Framework Configuration Guide</i>
z-cfg-RP	<i>JUNOS Routing Protocols Configuration Guide</i>
z-cfg-SI	<i>JUNOS Services Interfaces Configuration Guide</i>
z-cfg-SB	<i>JUNOS System Basics Configuration Guide</i>
z-cfg-VP	<i>JUNOS VPNs Configuration Guide</i>
JUNOS References	
z-ref-CB	<i>JUNOS System Basics and Services Command Reference</i>
z-ref-CI	<i>JUNOS Interfaces Command Reference</i>
z-ref-CP	<i>JUNOS Routing Protocols and Policies Command Reference</i>
z-ref-SL	<i>JUNOS System Log Messages Reference</i>
JUNOScript API Documentation	
z-script-API	<i>JUNOScript API Guide</i>
z-script-CFG	<i>JUNOScript API Configuration Reference</i>
z-script-OPS	<i>JUNOScript API Operational Reference</i>
JUNOS Comprehensive Index and Glossary	
z-gloss	<i>JUNOS Comprehensive Index and Glossary</i>
JUNOScope Documentation	
z-scope-UG	<i>JUNOScope Software User Guide</i>
J-series Services Routers Documentation	
z-J-GS	<i>J-series Services Router Getting Started Guide</i>
z-J-CFG	<i>J-series Services Router Configuration Guide</i>

Table of Variables: Sorted by Book Category	
Variable	Book Name
z-J-ADM	<i>J-series Services Router Administration Guide</i>
M-Series and T-Series Hardware Documentation	
z-MT-PIC	<i>PIC Guide</i>
z-MT-HW	<i>Hardware Guide</i>
Release Notes	
z-notes-SW	<i>JUNOS Release Notes</i>
z-notes-HW	<i>Hardware Release Notes</i>
z-notes-Scope	<i>JUNOScope Software Release Notes</i>
z-notes-J	<i>J-series Services Router Release Notes</i>
Network Operations Guides	
z-ops-B	<i>JUNOS Baseline Operations Guide</i>
z-ops-INT	<i>JUNOS Interfaces Operations Guide</i>
z-ops-MPLS	<i>JUNOS MPLS Operations Guide</i>
z-ops-HW	<i>JUNOS Hardware Operations Guide</i>
