

Chapter 40

DTD for MSP Response Tags

This chapter contains the Extensible Markup Language (XML) document type definition (DTD) called `junos-mspinfo.dtd`, which lists the JUNOS XML tags that contain MSP information. The associated XML namespace is `http://xml.juniper.net/junos/9.3R1/junos-mspinfo`. To review reference pages for the tags, see Summary of MSP Response Tags on page 1038.

<mspinfo-raw-output>

Usage	<pre><rpc-reply> <mspinfo-raw-output> <interface-name>interface-name</interface-name> <raw-output>raw-output</raw-output> </mspinfo-raw-output> </rpc-reply></pre>
