

## Chapter 43

# DTD for PMON Response Tag Elements

This chapter contains the Extensible Markup Language (XML) document type definition (DTD) called `junos-pmon.dtd`, which lists the JUNOS XML tag elements that contain periodic packet management process information. The associated XML namespace is `http://xml.juniper.net/junos/9.3R1/junos-pmon`. To review reference pages for the tag elements, see .
