

CTP1000 Mechanical Requirements

Follow these mechanical requirements for your rack:

- Select from the following rack options:
 - Two-post rack—A freestanding enclosed cabinet with two mounting posts in the front
 - Telco-type rack—Two adjacent mounting posts that you must secure to the floor or an overhead structure
 - Four-post rack—A freestanding open rack, either open or closed
- The rack must have at least two mounting posts.
- The distance between the mounting holes in the two posts must be 18.31 in. \pm .063 in., as specified in the EIA-310-D document.
- An optional mounting kit is available for midchassis mounting. Contact your Juniper Networks sales representative for more information.
