

## Before You Install the CTP1000 Platform

---

Before installing the platform:

- Refer to the platform specifications for the particular CTP model or series.
- Have a plan for installing the device that takes into consideration future expansion.
- Have the tools and accessories needed to complete the installation.
- Read and understand the clearance requirements for the front and back of the chassis for cable routing and other unit access. See CTP1000 Environmental Requirements for more information.
- Read and understand the clearance requirements for the top and bottom of the chassis to ensure adequate ventilation.
- Prepare the equipment racks by measuring and marking space for each device and plenum you plan to install.
