

## **tacacs-server source-address**

---

**Syntax**    tacacs-server source-address *ipAddress*  
              no tacacs-server source-address

**Release Information**    Command introduced before JUNOS Release 7.1.0.

**Description**    Sets or resets an alternative source address to be used for TACACS+ server communications. The **no** version removes the address.

**Options**    ■    *ipAddress*—IP address used as source by the TACACS+ server

**Mode**    Global Configuration
