

## volume

---

**Syntax**    volume *megabytes*  
              no volume

**Release Information**    Command introduced in JUNOS Release 7.2.0.

**Description**    Configures the threshold for the volume of traffic allowed for the service session. The service is terminated when the threshold is exceeded. The **no** version removes the volume attribute from the service session profile.

**Options**    ■    *megabytes*—Number of megabytes in the range 0–16777251

**Mode**    Service Session Profile Configuration
