

## license issu

---

**Syntax**    license issu *licenseKey*  
              no license issu

**Release Information**    Command introduced in JUNOS Release 9.2.0.

**Description**    Specifies the unified ISSU license key for the ERX1440 router provided by your sales representative or Juniper Networks Customer Service. No license key is required or available for the E120 and E320 routers. The **no** version disables the license.

**Options**    ■    *licenseKey*—Unique string of alphanumeric characters that we provide to you

**Mode**    Global Configuration
