

user-packet-class

Syntax [no] [suspend] user-packet-class *userPacketClassValue*

Release Information Command introduced before JUNOS Release 7.1.0.

Description Adds a user packet class rule to a policy list that sets the user packet class attribute of packets that match the current classifier control list. The **no** version removes a user packet class from a policy list; the **suspend** version temporarily suspends the policy rule; the **no suspend** version resumes application of a suspended rule.

NOTE: This command replaces the Policy List Configuration version of the **user-packet-class** command, which may be removed completely in a future release.

Options ■ *userPacketClassValue*—User packet class value assigned to packets, in the range 0–15

Mode Classifier Group Configuration
