

## ipv6 http port

---

**Syntax**    `ipv6 http port portNumber`  
`no ipv6 http port`

**Release Information**    Command introduced in JUNOS Release 10.1.0.

**Description**    Specifies the port on which the HTTP local server receives connection attempts for IPv6. The **no** version restores the default port number.

**NOTE:** Port numbers from 1 to 1024 are known as reserved ports. We recommend that you specify a port number that does not belong to this range.

---

**Options**    ■    *portNumber*—Number of the port, in the range 0–65535; the default is port 80

**Mode**    Global Configuration
