

SRX 210 Services Gateway Mini-Physical Interface Module Serial Number Label

Mini-Physical Interface Modules (Mini-PIMs) are field-replaceable on the SRX 210 services gateway. Each Mini-PIM has a unique serial number. The serial number label is located on the right side of the Mini-PIM, when the Mini-PIM is horizontally oriented (as it would be installed on the device) as shown in Figure xx on page xx — TBD. *Illustrations showing Mini-PIM serial number is to be provided here — TBD.*

The exact location might be slightly different on different Mini-PIMs, depending on the placement of components on the Mini-PIM.
