

Example: PPP MP for L2TP

Join multilink bundles based on the endpoint discriminator:

```
[edit access]
profile tunnel-profile {
  client remote-host {
    l2tp {
      multilink {
        drop-timeout 600;
        fragmentation-threshold 100;
      }
    }
  }
}
```
