Release Information Statement introduced before JUNOS Release 7.4.
Statement introduced in JUNOS Release 9.0 for EX Series switches.

Description Configure all AS numbers from all contributing paths to be included in the aggregate or generated route's path.

- **brief**—Include only the longest common leading sequences from the contributing AS paths. If this results in AS numbers being omitted from the aggregate route, the BGP `ATOMIC_ATTRIBUTE` path attribute is included with the aggregate route.
- **full**—Include all AS numbers from all contributing paths in the aggregate or generated route's path.

Default full

Required Privilege Level routing—To view this statement in the configuration.
routing-control—To add this statement to the configuration.
