

class-usage-profile

Syntax class-usage-profile *profile-name* {
file *filename*;
interval *minutes*;
source-classes {
 source-class-name;
}
destination-classes {
 destination-class-name;
}
}

Hierarchy Level [edit accounting-options]

Release Information Statement introduced before JUNOS Release 7.4.
Statement introduced in JUNOS Release 9.0 for EX Series switches.

Description Create a class usage profile, which is used to log class usage statistics to a file in the /var/log directory. The class usage profile logs class usage statistics for the configured source classes on every interface that has **destination-class-usage** configured.

For information about configuring source classes, see the *JUNOS Routing Protocols Configuration Guide*. For information about configuring source class usage, see the *JUNOS Network Interfaces Configuration Guide*.

Options *profile-name*—Name of the destination class profile.

The remaining statements are explained separately.

Required Privilege Level interface—To view this statement in the configuration.
interface-control—To add this statement to the configuration.
