

drop-timeout

Syntax	drop-timeout <i>milliseconds</i> ;
Hierarchy Level	[edit class-of-service fragmentation-map <i>map-name</i> forwarding-class <i>class-name</i>]
Release Information	Statement introduced in JUNOS Release 8.2.
Description	Disable or set the resequencing timeout interval for each forwarding class of a multiclass MLPPP.
Default	If you do not include this statement, the default sequencing timeouts for T1 speeds (500 ms) or lower (1500 ms) apply.
Options	<i>milliseconds</i> —Time to wait for fragments. A value of 0 disables the resequencing logic for that forwarding class. Range: 0 through 500 milliseconds for bundles with bandwidths or T1 speeds or higher or 1500 ms for bundles with bandwidths of less than T1 speeds.
Usage Guidelines	See Example: Configuring Drop Timeout Interval by Forwarding Class.
Required Privilege Level	interface—To view this statement in the configuration. interface-control—To add this statement to the configuration.
