

interface (Username for Static Subscribers)

Syntax interface;

Hierarchy Level [edit logical-systems *logical-system-name* system services static-subscribers authentication username-include],
[edit logical-systems *logical-system-name* routing-instances *routing-instances-name* system services static-subscribers authentication username-include],
[edit routing-instances *routing-instances-name* system services static-subscribers authentication username-include],
[edit system services static-subscribers authentication username-include]

Release Information Statement introduced in JUNOS Release 9.6.

Description Specify that a modified version of the interface name is included as part of the username created for all static subscribers except those overridden by a group configuration. The username is also sent to RADIUS in the Access-Request message. The interface name is modified by replacing the "/" character with the "-" character. For example, ge-0/1/2.50 is converted to ge-0-1-2.50.

Required Privilege Level system—To view this statement in the configuration.
system-control—To add this statement to the configuration.
