

## provisioning-order

---

**Syntax** provisioning-order jsrc;

**Hierarchy Level** [edit access profile *profile-name*]

**Release Information** Statement introduced in JUNOS Release 9.6.

**Description** Configure AAA to use JSRC in an SRC environment to request services from the SAE for an authenticated subscriber. JSRC attempts to activate these services. If successful, JSRC returns an ACK message. If unsuccessful, the subscriber is denied access.

**Options** jsrc—Application used to communicate with the SAE for subscriber service provisioning. JSRC is the only application that is currently available.

**Required Privilege Level** admin—To view this statement in the configuration.  
admin-control—To add this statement to the configuration.
