

scope-policy

Syntax scope-policy [*policy-names*];

Hierarchy Level [edit logical-systems *logical-system-name* routing-options multicast],
[edit routing-options multicast]

NOTE: You can configure a scope policy at these two hierarchy levels only. You cannot apply a scope policy to a specific routing instance, because all scoping policies are applied to all routing instances. However, you can apply the **scope** statement to a specific routing instance at the [edit routing-instances *routing-instance-name* routing-options multicast] or [edit logical-systems *logical-system-name* routing-instances *routing-instance-name* routing-options multicast] hierarchy level.

Release Information Statement introduced before JUNOS Release 7.4.
Statement introduced in JUNOS Release 9.0 for EX Series switches.

Description Apply policies for scoping. The policy must be correctly configured at the **edit** policy-options policy-statement hierarchy level.

Options *policy-names*—Name of one or more multicast scope policies.

Required Privilege Level routing—To view this statement in the configuration.
routing-control—To add this statement to the configuration.
