

upload

Syntax upload filename (*filename* | committed) destination *destination-name* {
 retry-count *count* retry-interval *seconds*;
 transfer-delay *seconds*;
 user-name *username*;
}

Hierarchy Level [edit event-options policy *policy-name* then]

Release Information Statement introduced in JUNOS Release 7.5.
committed option to filename statement introduced in JUNOS Release 8.1.

Description On receipt of an event, upload the committed configuration file to a destination.

Options destination *destination-name*—Name of the destination for the uploaded file. It must be defined in the `destinations` statement at the [edit event-options] hierarchy level.

filename (*filename* | committed)—Name of the file to upload. Specify either the word `committed` to upload the most recently committed configuration file, or the filename of another file.

The remaining statements are explained separately.

Required Privilege Level maintenance—To view this statement in the configuration.
maintenance-control—To add this statement to the configuration.
