

Supported Hardware Platforms for the BGF

Table 1 lists the hardware platforms that the BGF software supports. When we refer to services interfaces in the BGF documentation, we are referring to interfaces configured on the supported PIC, MS-DPC, or MIC.

Table 1: BGF Supported Hardware Platforms

Routing Platform	PIC or Port Concentrator Supported
M120, M320	MultiServices 400 PIC MultiServices 500 PIC
MX960, MX480, and MX240	MultiServices Dense Port Concentrator (MS-DPC) Trio Modular Port Concentrators (MPCs) with Modular Interface Cards (MICs)
T640	MultiServices 500 PIC
M7i, M10i	MultiServices 100 PIC
