What's Next?

If you want to	Then
Configure, monitor, and troubleshoot various interfaces installed on the MX304	See Interfaces Fundamentals for Junos OS .
Configure essential user access and authentication features for your system	See User Access and Authentication Administration Guide for Junos OS .
Install and upgrade Junos OS and related software	See Junos OS Software Installation and Upgrade Guide .
Use configuration groups to share a configuration file between redundant Routing-Engines.	See Configuring Junos OS for the First Time on a Device with Dual Routing Engines .

General Information

If you want to	Then
See all documentation available for the MX304	Visit MX304 Documentation
See all documentation available for Junos OS	Visit Junos OS Documentation
Change configuration settings, get another device up and running, or both, install REs, LMICs, fan trays, and power supplies	See MX304 Hardware Guide
Stay up-to-date with new and changed features and known and resolved issues	See the Junos OS Release Notes

Learn with Videos

Our video library continues to grow! We've created many, many videos that demonstrate how to do everything from install your hardware to configure advanced Junos OS network features. Here are some great video and training resources that will help you expand your knowledge of Junos OS.

If you want to	Then
Get short and concise tips and instructions that provide quick answers, clarity, and insight into specific features and functions of Juniper technologies	See Learning with Videos on Juniper Networks main YouTube page
View a list of the many free technical trainings we offer at Juniper	Visit the Getting Started page on the Juniper Learning Portal
