

# ACTIVATE YOUR JUNIPER NETWORKS JUNOS SPACE SUBSCRIPTION

This document briefly describes how to use your Juniper Networks authorization code to activate your Juniper Networks® Junos® Space product

## Four Easy Steps to Activate Your Juniper Networks License Key

1. Gather the authorization code for your Juniper Networks Junos Space subscription. If you will be adding a new Junos Space device to your network, gather its serial number as well (device serial number is only needed when adding Junos Space device hardware).

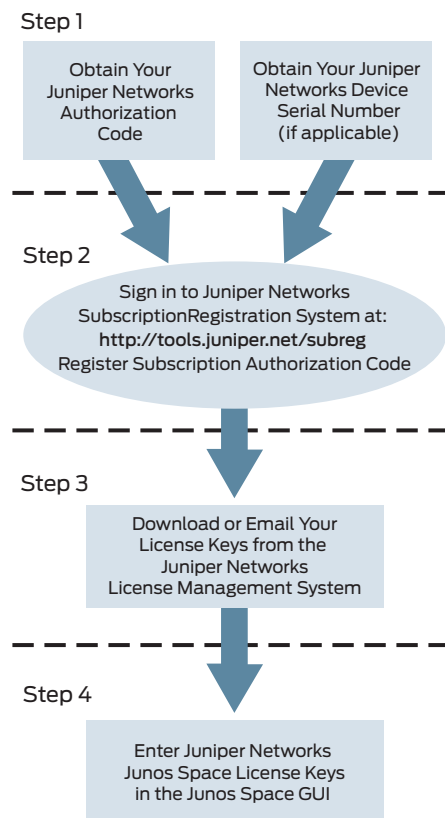

**Authorization Code:** The 16-digit alphanumeric authorization code is sent via email in response to your order and is required to activate the subscription feature for your Juniper Networks product. The authorization code is required to generate your license key—it is not the actual license key.

**Device Serial Number:** The device serial number is a unique alphanumeric code used to identify your Junos Space device when generating license keys. You can find the device serial number at the bottom or side of the unit. You can also find the serial number through the Junos Space GUI. Select Administration -> Manage Fabric to see the nodes within the Space fabric. Select the node you need to register and view Details to display the serial number of the device.

2. Go to Juniper's subscription registration website. It can be found via the Support link on Juniper's website by clicking on the link under the heading "MANAGE PRODUCTS," and subheading "Product Licensing," or it can be accessed directly at <http://tools.juniper.net/subreg/>. Click on the link for Junos Space subscription registration and follow the instructions. If you do not have a Customer Support Center (CSC) login, please click on the link Create an Account below the login box on the CSC main page. During the subscription registration process, please register your hardware device if your Space device is not currently registered.
3. From the Subscription Registration site, you will be directed to the Juniper Networks License Management System (LMS) where LMS will provide you with your Junos Space license key in one of two ways:
  - Download your license key to your computer from the License Management System.
  - Receive an email from LMS containing your license key.

4. Sign in to the Junos Space GUI and enter your license key on the Administration -> Manage Licenses -> Upload License screen. Paste your license into the form and click Upload.

### Activating Your Subscription

For more detailed information regarding license key types, generating a new license key, and upgrading existing license keys, please refer to the [Juniper Networks Junos Space Administration Guide](#) for your Junos Space product.

For additional assistance, you may contact Juniper Networks Customer Care at +1-888-314-5822 (United States) or +1-408-936-1572 (outside the United States). Alternately, you may also open a case online via the Juniper Customer Support Center Case Manager.
