

# ACTIVATE YOUR APPLICATION ACCELERATION PRODUCT

This document describes how to activate your Juniper Networks product.

Juniper Networks application acceleration products can ship with a temporary unlimited license that expires after a period of time if a perpetual license key is not installed (see product literature for exact expiration period).

To obtain a perpetual license activation key for new products or upgrade license activation key(s) for already deployed products, sign into the Juniper Networks License Management System (LMS) by following the **Manage Product Licenses - Generate License Keys** link found at [www.juniper.net/generate\\_license](http://www.juniper.net/generate_license). A Juniper Customer Support Center login ID is required.

Once you have obtained the license keys, they can be loaded onto your product to unlock your purchased features.

## Instructions for WX CMS users only:

If you are using the License Management feature of Juniper Networks® WX Central Management System (WX CMS) to apply a device's initial perpetual license, you can import the Authorization Code identifiers below directly into CMS as follows:

- 1) Use the Acrobat Text Tool to copy the lines below from this PDF document.
- 2) Paste the lines into a text file and save it to disk. The file you create may have any extension, but be sure that the file is a simple text file (for example, a .TXT file as created from NotePad, or a .CSV file created from Excel), NOT a binary file (for example, a .DOC file created from Word or a .XLS file created from Excel).
- 3) In CMS, go to Management -> License Management -> Authorization Codes -> Import and type the full path name of the file you created in step 2 and then press the Import button.

**Note:** You cannot use the CMS License Management feature with devices that already have a perpetual license key applied. Juniper Authorization Code Certificate (Format for Auto Licensing using WX CMS 5.1 or later).

## CMS format follows:

```
2Utu-uinn-riei-tNup,WXOS-100-1-10,"Upgrade an WX 100C/100F from 1 Mbps to 10 Mbps"
```

For detailed information about license key types, generating a new license key, and upgrading existing license keys, see your product's administration guide.

For additional assistance, you may contact Juniper Networks Customer Care at +1-888-314-5822 (United States) or +1-408-936-1572 (outside the United States). Alternately, you may also open a case online via the Juniper Customer Support Center (CSC) Case Manager.
